Euro LT Hybrids General Setup Instructions
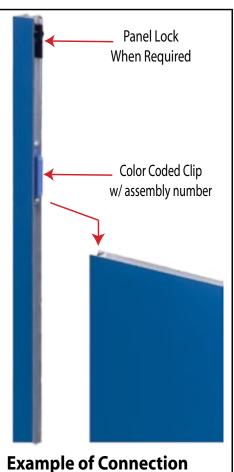

Using Your Setup Instructions

The Euro LT Hybrid Setup Instructions are created specifically for your configuration. They are laid out sequentially in levels, including exploded views, and a logical series of detailed steps to assemble the main structure and components. We encourage you to study the instructions **before** attempting to assemble your exhibit.

Panel Lock When Required

Color Coded Clip w/ assembly number

Black Clip is bottom of panel

Connector

Each component has 2 clips, the lower clip is ALWAYS black.

R i g h t P a n e l

Cut Away View Of Slide Clips

Components connect together by aligning them and sliding downward connecting clips together.

Panel Lock When Required

Color Coded Clip w/ assembly number
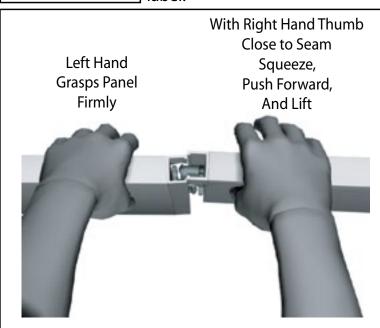

Example of Connection

Configurations are assembled from left to right, usually starting with #1 and following the numbered sequence.

Cleaning and Packing Your Display
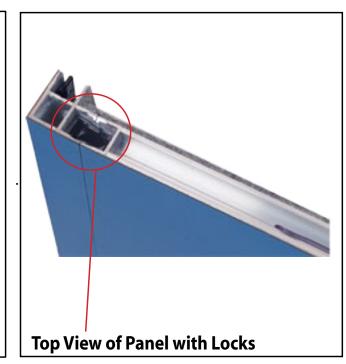

1) When cleaning laminate countertops or panels use mild cleansers and a soft material such as cotton.
2) Keep all display components away from extreme heat and long exposure to sunlight to avoid warping and fading.
3) Retain all packing material. It will make re-packing much easier and will reduce the likelihood of shipping damage.

Level 1 = Blue
Level 2 = Red
Level 3 = Green
Level 4 = Black
Color Code

The top clip is color coded to distinguish the level. The color coded clip also contains the numbered label.

Left Hand Grasps Panel Firmly

With Right Hand Thumb Close to Seam Squeeze, Push Forward, And Lift

Top View of Panel with Locks

The first level of components contains panel locks that are located at the top of the panel for extra stability and a seamless connection. When dis-assembling panels, twist top connection slightly and lift right panel upward.
